

LIVE STREAMING WITH NEXTGENXV

NEXTGENXV

WHO WE ARE

NEXTGENXV

NextGenXV is the Global Home of School Rugby with a mission to bring school sport to the big screen via live streams.

Games are hosted on our YouTube channel where over 10,000 die hard Rugby fans subscribe waiting for notifications of live games. We simulcast the games on our social media channels increasing the world wide reach.

Our production crew are a blend of experienced industry professionals and up and coming stars from community programmes which specialise in giving opportunities to those who might otherwise be missed.

WHY STREAM WITH NEXTGENXV?

NEXTGENXV

Out of sight, out of mind - featuring on our streams keeps you at the forefront of the conversation, whether that be weekly previews and roundups, or across our media platforms.

When we stream a game we will be:

Previewing the game

Commenting on social media

Engaging with comments

Writing up the game

Creating highlights

Driving the conversation before, during and after.

STREAM MANAGEMENT & GRAPHICS

NEXTGENXV

YOUR CAMERA, YOUR CAMERA OPERATOR

Our streaming team would manage your stream for you while still using your own stream-capable kit to broadcast your event live.

We manage and monitor your stream while adding graphics.

This would allow you to focus on your game while knowing that a professional will be managing your live stream.

STREAM MANAGEMENT WITH CLOUD-MATE HIRE.

YOUR CAMERA, YOUR CAMERA OPERATOR

We provide a weather-proof case designed with plug & play streaming in mind.

Simply switch on, plug in, and hit stream to begin live broadcasting your event to any audience of your choice, all the while a dedicated NextGenXV crew will be managing your stream.

Live Graphics are optional and no extra cost if you wish to include.

Simple, stress-free streaming!

COMMENTATORS, YOURS OR OURS?

NEXTGENXV

You can add a commentator to any of the options shown.

There are plenty of students/coaches/supporters who want to tell you, and the rest of the school/clubhouse what they think and what the team needs! This is their chance, someone that knows all the players and is not shy to shout about it on air.

Alternatively;

We can add commentary at our studio with a commentator of our own. Just send us through the team sheets and we will do the research, giving you a professional standard of commentary.

CLOUD-MATE DUO SERVICE

NEXTGENXV

Our Cloud-Mate DUO is especially designed for those seeking a professional live production at your sports event without having the need to accommodate a live production crew.

A NextGenXV crew will access your cameras remotely from our own streaming hub and provide a high quality broadcast as if we were on-site.

HI-MATE STREAMING

NEXTGENXV

The Hi-Mate Tripod has recently been updated to include live-streaming functionality from 27ft off the ground.

Designed to make filming and analysing sport events easy and effective, the telescopic tripod provides a bird's-eye view of any sporting event and is operated remotely using its state-of-the-art camera head, wireless tablet and custom app.

Able to fit in most cars for easy transport, weighing less than 9 kgs, the Hi-Mate is the ultimate option for a mobile service.

Give your live sports events an in-stadium look with the Hi-Mate's unique viewing angle.

ON-SITE OUTSIDE BROADCASTING UNIT

NEXTGENXV

Our specially designed Outside Broadcast Unit (OB) is fully stream-ready.

Made to provide live broadcasts with up to 12 cameras, 48 audio channels, instant replays, live graphics and a crew of experienced broadcasters.

This is a bespoke service depending on your needs so is scalable cost-wise from a minimum of 1 camera upwards.

The model you will be familiar with from events such as the St Joseph's Festival or individual games such as Sedbergh v Wellington College.

Let us know what you want in your live stream and we'll make it happen.
